

## Point 65 - Tequila

£ 550

### Description

We have just taken delivery of a container full of Point 65 Tequila kayaks. These are tough hard wearing and easily stored/transported as they are of sectional construction! Each section only weighing around 12KG! They can be stored in cupboards - transported in backs of cars, etc. I personally own four of these for family/friends and have done so for the last six years or so. They are great on Estuaries, Creeks, Lakes, Canals, The Norfolk Broads. Very easy to paddle, track-well, stable and well suited to beginners. Any questions please ask? WE HAVE ONE EX-DEMONSTRATOR LEFT IN GREEN WITH SOME SCUFFS AT A REDUCED PRICE OF £500.00
